In-Class Activity	8
Adding an Activity	12

This step-by-step tutorial will guide you through using the eTaleem application simply and quickly.

Launching the Application

- 1. Open the Windows search bar.
- 2. Search for "eTaleem Pakistan" as shown in the image below.
- 3. Click on the highlighted application to launch it.

3. Click "Logout" will log out the user and return to the login page.

Manage Content

This section describes the Manage Content page which displays three types of images:

- **No preview available**: The video is present in the folder but no thumbnail is found (video can still be played).
- **Thumbnail Image of Video**: Both video and thumbnail are present in the folder (video can be played).
- Video Unavailable: Video is not available in the folder (cannot play the video).

C TeleSchool Content		
No preview available Multiplication	COMPARING * ORDERING NUMBERS NUMBERS Tents and Hundredths	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 0 Bounding Off Numbers
Multiplication - Times Tables	Video unavailable This video is not evaluable	Addition and Subtraction - Estimation

- 1. Click the image that will play the video on the next page as shown below.
- 2. Right-click on the video area.
- 3. Hover over and select "Zoom" from the menu.

4. Click "Full Screen" to play the video in full-screen mode.

Play Video			
Terths and Hundredths Terths and Hundredths area by dwdrg objects, 1-digit numbers and quantifies into two or hundred regai gats respectively.	Play/Neuse Stop Play-ins > Volume > Zoom > File markers. Poperties Statistics Statistics Help About	Full screen D= 50% 200%	

- 5. The video can be viewed in full-screen mode in the image below.
- 6. When the video ends, a popup will ask the teacher if they wish to proceed to the in-class activity page.
- 7. If the teacher wants to attempt an activity, click "Yes", otherwise click "No".

Note: Hovering over the video title will display the ID of the video. If you place a video (video name = video ID) inside the already selected folder path (as specified in Step 2 of the Menu section), it will start playing the video. Watch the video tutorial for better guidance ("2c Teleschool Content Management User Experience 3.mp4").

In-Class Activity

The landing page of the In-Class Activity offers the following:

- 1. Step 1 shows the filters for the In-Class Activities:
 - "All" displays all the In-Class Activities.
 - "Attempted" shows only those activities that have been attempted and cannot be attempted again.
 - "Published" displays only those activities that are ready to be attempted.
 - "Unpublished" shows those activities that have not been published from the web portal and are not ready to be attempted.
- 2. Step 2 shows the status of the In-Class Activity.
- 3. Step 3 will take the user to the statistics page, showing stats for those In-Class Activities attempted using this eTaleem application.

In-Class Activities		Add	Activity 1 All
math-activity est class activity	2 Attempted	new activity ddd	Attempted Published Attem Unpublished
new activity clickers	Attompted 3	new activity clickers ddddsdsd	Attempted
New Activity desc	Attempted	Sport Activity dsdsds	Attempted
Adel1 Adel1	Attempted	Adel2 Adel2	Attempted
Adel3 Adel3	Attempted	Tanzeel lot text Test	Attempted

Tanzeel Activity 3z∖ ∄v	Attempted	Tanzeel Activity 4	Attempted
Tanzeel Activity 5	Attempted	Tanzeel Activity 6	Attempted
			3

4. Click on the highlighted area of any In-Class Activity to try it.

yeg jyg	Published
test activity NCA rty	Published

- 5. You will then see the In-Class Activity page, which will be attempted by the students using clickers:
 - Step 1 displays how many students have answered the current question. The count will reset for each new question when you click "Next".
 - Step 2 hides the student list and expands the question area to the full right side of the screen. Clicking it again will show the student list and move the question area to the left.
 - Step 3 allows for increasing/decreasing the font size of its respective text area.

• Step 4 loads the next question.

6. Click "Submit" after attempting the last question.

Activity Questions			0/20 Students Answered
Questions 7/7 (MSA) test	20 (•	(No clicker assigned): Student 129 50 : Student 33
			(No clicker assigned): Student 49 (No clicker assigned): Student 65
A. test	20 3	ŧ	(No clicker assigned): Student 81 (No clicker assigned): Student 97
B. tes			21 : added after (No clicker assigned): advanceedone toschooltwo
			(No clicker assigned): aya test (No clicker assigned): bbb kkk
	Submit		(No eliekar essienad):

 A popup will appear; click "OK". You will be directed back to the landing page of the application.

		\times
ctivity submitted	d successfully	
	ОК	

- 8. To review statistics, reopen the In-Class Activity page and click on the "**Stats**" button of the activity you previously attempted. The Stats page will display, allowing you to apply filters and view different stats for different sections or questions.
 - Use the highlighted area to apply filters and see different stats for different sections or questions.
 - Only the lower part of the page will change with changing these filters.
 - The upper part will remain the same, as that part is for the whole In-Class Activity.

Adding an Activity

Let's explore the "Add Activity" functionality:

1. Click the highlighted "Add Activity" button.

In-Class Activities			Add Activity	AI ·
1st act ewf	Attempted	2nd act rw		Published
test test	Published	test test		Unpublished
lama test test	Unpublished	QB 1 de		Attempted

- 2. The page displayed requires you to fill in the "Title" and "Description," which are necessary fields.
- 3. Click "Add TFQ" to add a True/False Question, "Add MCQ" to add a Multiple Choice Question, and "Add TFQ" to add a Multi Select Answer.
- 4. Click "Add a question from the course template" to add questions from the Question Bank linked to this course.
- 5. Follow the steps to add and manage questions from the Question Bank.
- 6. Click "Publish" to publish this activity. If the internet is available, it will be directly created online and visible in the web portal. If there is no internet connection, it will be saved locally, and will still be available to attempt, and when the internet is restored, it will sync with the server and upload the data to the web portal.

Title		De	scription		
Show activity in event of	alendar				
Add TFQ	Add MCQ	Add MSA	Add a question from the	ne course template	Publish

- 1. Let's add 2 MCQ questions.
- 2. Use the highlighted buttons to hide/show a question.

- Activit	Creation				o ×
<	ADD IN-CLASS ACTIVITY				
	Title	Description			
	1				
	Show activity in event calendar				<u>م</u>

				× .	
	NUMBER OF CHOICES				
	Two Choices	•			
					~

- 3. Fill all the necessary fields.
- 4. Number of Choices can be changed, and on changing this field, the options fields will also be loaded dynamically; e.g. Number Of Choices = Five Choices, then five options will be loaded under this, which must be filled with some answers.
- 5. Now click on "Add a question from the course template" to add a few questions from Question Bank.
- 6. The following screen will be shown.

c: Grade 3 Math		
rade 3 Math Place Value	^ □ Select All

- 7. Click on any Tree Node on the left side of the screen to load its questions on the right side of the screen.
- 8. Select the questions you want to add to the In-Class Activity.
- 9. Select All will select all the questions. Clicking it again will unselect all the questions.
- 10. Select Sections and click the **Add** button.
- 11. Let's add two questions from Question Bank (we already had 2 MCQ questions added manually).
- 12. Now, we can see, a total of 4 questions have been added.
- 13. Expanding the 4th question shows, already filled data (editable) from Question Bank included.
